

BONDO WIND FARM

PROJECT NEWSLETTER

JULY 2026

Neoen is investigating the potential to develop a wind farm in the softwood plantations near Bondo, approximately 15-kms east of Tumut. The Bondo plantations are suitable for a potential wind farm because they have: a strong wind resource, three existing transmission lines, and a large network of existing roads

Feedback on Community info sessions at Tumut and Tumorrana

The Bondo Wind Farm Project team held community information sessions in Tumut (21st July) and Tumorrana (22nd July) with a total of 27 people attending across both sessions.

The main concerns raised related to bushfire risk, visual amenity, and potential environmental, noise and health impacts, although a broad range of other matters were also discussed. Minutes will be shared with attendees and further sessions are scheduled for the week commencing 3rd August and registrations remain open.

Upcoming Community Info Sessions

Bondo Wind Farm is holding further community information sessions In Argalong/Lacmalac on 3rd August (confirmed), Tumut on 4th August (confirmed), Adjungbilly on 5th August (confirmed), Brungle on 6th August (pending interest). Registrations to these sessions remain open. These small group sessions provide an opportunity for community members to share feedback or concerns, speak directly with the project team, and receive up-to-date information about the project.

Please register your interest via the QR code or this link: [Community Sessions](#)

Small groups

12–15 people per session for meaningful conversations.

Ask anything

Raise your own questions and hear those of your neighbours.
